

Matrix: New Center; Names Bosetti Business Manager

Tuesday, August 31, 2010 | Matrix USA, Inc.

Matrix is delighted to announce the appointment of Edson Bosetti as Business Manager for its New Drill Resharpener Center. Bosetti has more than 15 years of experience with PCB cutting tools and was formerly General Manager of Canadian Union Tool/Megatool Operations. Further experience as Senior Contract Manager with Nortel Networks and Service Sales Manager with Mania Technology give Bosetti the complete experience to organize this new venture.

"After eight years of selling highly-successful Jinzhou tools, Matrix will now be able to provide a full resharpener service to all customers. All tools will be 100% AOI inspected, utilizing state-of-the-art automatic robots," says Kieran Healy, President of Matrix.

With an investment in excess of \$400,000, Matrix will further focus on supporting the most sophisticated and high-profile PCB manufacturing companies in the North American market. The new Resharpener Center will be located in the Toronto, Ontario region and offer next-day courier shipments throughout the U.S. and Canada.

The first Matrix project plan is to have a world class resharpener operation with sophisticated repointing machines, AOI inspection, ultra sonic system, automated ring setters, non contact measurement devices, etc. For more information, contact Bosetti directly at 800-668-5447 or visit www.matrixusa.us.
